Atlas — the complete creative operating system for working artists.

Workbook — the curriculum as working practice: exercises, reflections, action plans.

Field Companion — the desk reference: 100 Lenses, resilience and performance protocols, the Twelve Gates.

Availability. Retail and library ordering through Amazon and through Ingram (Expanded Distribution). Inquiries: press@artmorph.org

Course & collection use. The three volumes function as a complete course apparatus: the Atlas as primary text, the Workbook as the studio or seminar component, the Field Companion as running reference and discussion source. The sequence assumes prior creative experience and requires no prerequisites. An educator's companion setting out the pedagogy, the lineage, and course-adoption guidance is available to faculty and curriculum designers at artmorph.org.
